

## What To Expect From An Advocate

- **AGGRESSIVE REPRESENTATION:** We are prepared to take your case to court if the insurance company will not settle fairly and reasonably
- **RESPONSIVENESS:** We return all client phone calls and emails within two business days
- **DIRECT COMMUNICATION:** We provide you with regular updates and ensure you can always speak directly to your attorney if you need
- **CARE AND COMPASSION:** We see you as an individual with unique needs, not just another case
- **THE EXTRA MILE:** We will meet you at your house or place of work, find you a great medical professional, and/or get you into a mechanic, depending on your needs

“At The Advocates, your case is about getting what is most important to YOU. We will listen to what YOU want to achieve and will support you in all aspects of your recovery. It’s much more than just getting you more money, even though we are really good at doing that as well. We have built out systems and have individuals working on different parts of your case all at the same time. You have an attorney who is available when you need answers and an entire team working towards getting you the best result possible.”

**Matt Driggs, founder and owner of The Advocates**
